EDUCATION

Kalinga Institute of Industrial Technology (KIIT)

Bachelor of Technology, Computer Science Engineering — CGPA: 9.52

Bhubaneswar, India

Jul 2023 – Present

Contai Public School

ISC (Class XII), Science (PCMB) — 97.5% — AIR 10

West Bengal, India

Jul 2022

SKILLS

Languages: Java, Python, JavaScript, TypeScript, C

Core CS: Data Structures & Algorithms, OOP, Operating Systems, DBMS, Computer Networks, SDLC

Frontend: HTML5, CSS3, React.js, Tailwind CSS, Next.js

Backend: Node.js, Express.js, RESTful APIs

Databases: SQL, MySQL, MongoDB

Tools & Platforms: Git, GitHub, Postman, AWS, VS Code, IntelliJ IDEA, Eclipse, Jupyter Notebook

Problem Solving: Solved 300+ DSA problems (DP, Graphs, Trees, Greedy)

PROJECTS

Merchanta AI — AI Representation Optimizer

[Next.js, Python, FastAPI, MongoDB] [Live Demo](#)

- Built an **AI-native commerce platform** for optimizing merchant visibility across **AI shopping agents**
- Developed **buyer-intent simulation** and **AI visibility scoring** pipelines for product ranking analysis
- Architected a **distributed AI platform** using **FastAPI, MongoDB, Shopify APIs, and semantic AI workflows**

Buildora — Internal Tools Generator

[Next.js, Express.js, PostgreSQL, Prisma] [Live Demo](#)

- Built an **AI-assisted platform** for generating internal tools using **JSON schemas**
- Developed **schema-driven rendering** for **dynamic forms, tables, CRUD, and CSV workflows**
- Integrated **LLM workflows** for **schema configuration and dynamic tool generation**

GlideWay — Smart Bus Booking Platform

[MERN, Socket.io, Mapbox] [Live Demo](#)

- Built a **full-stack scalable bus booking platform** handling **500+ concurrent users**
- Developed secure **REST APIs** with **JWT authentication** and **role-based access (RBAC)**
- Implemented **real-time tracking** using **Socket.io** and **Mapbox**, built **analytics dashboard** for monitoring, and optimized **seat allocation and pricing algorithms** to improve booking efficiency

Accessible Learning Platform for Visually Impaired

[MERN, Web Speech API]

- Developed an **accessibility-focused learning platform** with **voice navigation** and **audio-based interaction** using **Web Speech API** to improve usability for visually impaired users
- Implemented **role-based access control (RBAC)** with **admin approval workflow**, enabling teachers to upload content for students
- Integrated **open-source face detection model** for **face-based login** and added **AI-based summarization** to enhance accessibility

ACHIEVEMENTS

Smart India Hackathon 2025

India

Waitlisted for Final Round

2025

- Built an **AI-based space debris avoidance system** using **ML** and **orbital datasets**
- Developed **collision-risk prediction models** with uncertainty estimation for decision support
- Led end-to-end **ML pipeline development**, from data ingestion to prediction deployment

CERTIFICATIONS

AWS Academy Graduate — Cloud Foundations

[Credential Link](#)

Amazon Web Services (AWS) Training and Certification

Trained in AWS core services, cloud architecture, security, pricing models, and deployment best practices.
