EDUCATION

Kalinga Institute of Industrial Technology (KIIT)

Bachelor of Technology, Computer Science Engineering — CGPA: 9.51

Bhubaneswar, India

Jul 2023 – Present

Contai Public School

ISC (Class XII), Science (PCMB) — 97.5% — AIR 10

West Bengal, India

Jul 2022

SKILLS

Languages: Java, C, JavaScript, TypeScript, Python

Core CS: Data Structures & Algorithms, OOP, Operating Systems, DBMS, Computer Networks, SDLC

Frontend: React.js, Tailwind CSS, Next.js

Backend: Node.js, Express.js, Spring Boot, Laravel, RESTful APIs

Databases: MySQL, MongoDB, PostgreSQL

Tools & Platforms: Git, GitHub, Postman, Prisma, VS Code, IntelliJ IDEA, Eclipse, Jupyter Notebook

Problem Solving: Solved 300+ DSA problems (DP, Graphs, Trees, Greedy)

PROJECTS

GlideWay — Smart Bus Booking Platform

[MERN, Socket.io, Mapbox] [GitHub](#) — [Live Demo](#)

- Built a **full-stack scalable bus booking platform** handling **500+ concurrent users**
- Developed secure **REST APIs** with **JWT authentication** and **role-based access (RBAC)**
- Implemented **real-time tracking** using **Socket.io** and **Mapbox**, built **analytics dashboard** for monitoring, and optimized **seat allocation and pricing algorithms** to improve booking efficiency

Buildora — Internal Tools Generator

[Next.js, Express.js, PostgreSQL, Prisma] [GitHub](#) — [Live Demo](#)

- Built an **AI-powered platform** generating business apps from **prompts and JSON schemas**
- Developed **schema-driven runtime rendering** for forms, tables, CRUD, and CSV workflows
- Integrated **JWT auth** and **LLM-powered app generation** for scalable multi-page tools

Accessible Learning Platform for Visually Impaired

[MERN, Web Speech API] [GitHub](#)

- Developed an **accessibility-focused learning platform** with **voice navigation** and **audio-based interaction** using **Web Speech API** to improve usability for visually impaired users
- Implemented **role-based access control (RBAC)** with **admin approval workflow**, enabling teachers to upload content for students
- Integrated **open-source face detection model** for **face-based login** and added **AI-based summarization** to enhance accessibility

SmartClinic Queue — Hospital Management System

[React, Spring Boot, MySQL] [GitHub](#)

- Built **priority-based queue system** to optimize patient scheduling and reduce wait time
- Developed scalable backend using **Spring Boot** with modular architecture for API development
- Implemented **real-time queue tracking** with efficient handling of **concurrent requests**

ACHIEVEMENTS

Smart India Hackathon 2025

Waitlisted for Final Round

India

2025

- Built an **AI-based space debris avoidance system** using **ML** and **orbital datasets**
- Developed **collision-risk prediction models** with uncertainty estimation for decision support
- Led end-to-end **ML pipeline development**, from data ingestion to prediction deployment

CERTIFICATIONS

AWS Academy Graduate — Cloud Foundations

Amazon Web Services (AWS) Training and Certification

Completed training in cloud computing, AWS core services, security, pricing models, and architectural best practices.
